

RESPONSIBILITIES OF A TRUSTEE-NURSING FACILITY

An income trust establishes income eligibility for nursing facility clients or HCBS (Home and Community Based Services) clients under Medicaid.

If the trust is used for **nursing facility** eligibility, the following instructions apply:

As a trustee, it is your responsibility to pay the nursing facility the “patient payment” each month. The technician at the county department for social/human services will inform you of the exact amount. Most often, it is the total amount of income received each month less a trust maintenance fee for trust expenses and a \$50.00 personal needs allowance for the Medicaid recipient. The trust maintenance fee may only be used for expenses to maintain the existence of the trust, such as bank charges.

Keep the trust bank account separate from any other accounts or funds. Do not write any checks from the account for any purpose other than the payment to the nursing facility, trust maintenance expenses not to exceed \$20.00 per month, the personal needs allowance of \$50.00 per month, and any deductions pre-approved by the county department of social/human services, such as spousal allowance.

It is not necessary to change the name of the payee on the pension or social security checks from the Medicaid recipient to the name of the trust. In fact, many pension plans and social security will not allow you to do so. The income may be paid directly to the nursing facility if the facility is named as the representative payee for the income.

In accordance with 10 C.C.R. 2505-10, Section 8.110.52.B.5.a.1), the trust will automatically terminate upon the death of the Medicaid recipient, or prior to death, if the individual is no longer a Medicaid recipient in Colorado. When the trust terminates, any remaining funds in the trust account must be paid to the Colorado Department of Health Care Policy and Financing, 1570 Grant Street, Denver CO 80203, to reimburse Medicaid for the cost of care. **This includes any amount remaining from the \$20 per month for trust expenses.** Please include with your trust check an accounting of income received and payments made out of the trust account. This need not be professionally done. It may be a check register if it is clear and legible.

RESPONSIBILITIES OF A TRUSTEE-HCBS

If the trust is used to establish income eligibility for **HCBS**, the following instructions apply:

Each month the Medicaid client may retain a certain amount for his or her own use. This amount is three times the amount of Supplemental Security Income (SSI) and changes each year. The county technician will inform you of that amount. Any income over that amount must be retained in the trust bank account and may be used only to reimburse Medicaid when the trust terminates.

If the Medicaid client is married, it may be allowable to use some of the trust as income for the non-Medicaid spouse. The county technician will also inform you if this is allowable in this case and the amount payable to the non-Medicaid spouse.

In accordance with 10 C.C.R. 2505-10, Section 8.110.52.B.5.a.1), the trust will automatically terminate upon the death of the Medicaid recipient, or prior to death, if the individual is no longer a Medicaid recipient in Colorado. When the trust terminates, any remaining funds in the trust account must be paid to the Colorado Department of Health Care Policy and Financing, 1570 Grant Street, Denver CO 80203, to reimburse Medicaid for the cost of care. Please include with your trust check an accounting of income received and payments made out of the trust account. This need not be professionally done. It may be a check register if it is clear and legible.
